REDEFINING RIDE COMFORT

Ride Comfort and handling is a critical aspect of any vehicle. Apart from providing a comfortable ride, shock absorber also has to manage the handling of vehicle and provide added safety to its passengers. At Gabriel, we continuously 'Redefine Ride Comfort'. Through many successful products, we deliver both comfort and ride luxury on roads in India and globally. We are consistently at the forefront of innovation in Ride Control technology. Our name is synonymous with shock absorbers in the marketplace.

Gabriel was in the forefront to introduce McPherson struts that later on became a standard feature in the Passenger Car segment. We also introduced light weight strut with hollow piston rod, world class plating technology and laser welding in the same segment. In 2-Wheelers, we introduced canister type shock absorbers in mono tube design, mono shox with floating piston and high strength aluminium outer tube for front forks. In Commercial Vehicles, we continuously upgrade the product technology that offers a high value proposition much ahead of competition.

During our illustrious history spanning 55 years, we received several awards for our contribution to the automotive industry. Our Technology Centre is highly recognised for excellence in the development of Ride Control products.

Gliding silently and smoothly over just about any road surface is our brand promise. Our foundations, beliefs and philosophies always have, and will continue to define the way we do business.

KEY MESSAGES

Chairperson's Message to Shareholders

The ambitious Automotive Mission Plan 2026 expects the automotive industry to grow from the current turnover of 39 billion USD to 200 billion USD, a growth rate of more than 17% in the next 10 years, which provides related growth potential for automotive components.

“We will provide a renewed impetus on strengthening the ‘Culture of Quality and Safety’ across the company.”

ANJALI SINGH
Chairperson

Dear Shareholders,

During FY2016, the Indian economy recorded a five-year-high growth rate of 7.6%, compared to 7.2% growth in FY2015 and 6.6% in FY2014, making it the world's fastest growing economy. The Government has taken several steps to improve the country's economic environment, including simplifying approval procedures, reforming the tax regime, increasing investment in infrastructure and addressing the issue of subsidy leakage. Foreign investment inflow into the country increased by 39% in FY2015, and India climbed 12 notches on the World Bank's 'Ease of Doing Business'. An integrated set of initiatives, including 'Make In India', 'Start-Up India' and 'Skill India', are also expected to help significantly in growth and job creation.

This year, the Indian automobile industry continued reasonable improvement in all vehicle segments other than 2-Wheelers, entering positive growth territory from -2% in FY2014. The Indian auto component industry thus reported overall growth of 8.8% in FY2016. The ambitious Automotive Mission Plan 2026 expects the automotive industry to grow from the current turnover of 39 billion USD to 200 billion USD, a growth rate of more than 17% in the next 10 years, which provides related growth potential for automotive components.

OUR PERFORMANCE

I am pleased to report that your Company delivered excellent

Chairperson's Message to Shareholders

results in FY2016 and made commendable progress towards further cementing our identity as India's leading manufacturer and brand of Ride Control products.

During FY2016, the 2-Wheeler industry, which accounts for 58% of the Company's sales and has been an important contributor to our growth in previous years, witnessed flat growth. Despite this, the Company was not only able to almost meet its sales target, but exceeded its profit target. It was heartening to see all the Strategic Business Units (SBU's) perform well, especially the Passenger Car and Aftermarket SBU, which saw good progress on account of higher sales from new launches.

The total sales of the Company was Rs 14,264 million as against Rs 14,298 million in FY2015. While sales was flat, the increase in our bottom-line was remarkable as Profit After Tax increased from Rs 600 million in FY2015 to Rs 752 million in FY2016, an increase of 25%. This strong performance was the result of a number of concurrent initiatives taken by the Company, which are discussed in detail in the Annual Report.

Dividend per share has been rising over the years – from Re 0.50 in FY2011 to Re 1.05 in FY2015. We propose a total dividend of Re 1.20 per share of Re 1 each, translating into a pay-out ratio of 23%.

Last year, Gabriel started its journey as a technology provider to Gabriel De Colombia. This is an important milestone whereby not only is the company an exporter of products, but also of knowledge and technical know-how. This is a testimony to the focused work and achievements in technology development during the last few years.

In 2015, Gabriel was recognized by the Great Place to Work® Institute – it was ranked 2nd and 43rd in the Auto Component Industry and Overall categories respectively. This was an acknowledgement of Gabriel's respect for people, empowerment, accountability, meritocracy and career development programmes. The company truly believes in developing the employees of today into leaders of tomorrow.

At the recently concluded Annual Supplier Meet for 2015-16 of Mahindra Group, ANAND was conferred with the prestigious "Business Partner of the Year" award. This is a coveted recognition from our valued customer, a truly proud moment for ANAND and for each of our companies including Gabriel India. Also, our quality products and processes have been recognised consistently by industry and customers. The Dewas plant won the 'FICCI Quality Systems Excellence Award for Manufacturing'. Gabriel also received the 'Overall Cost Reduction' Award from Suzuki Motorcycles, 'Silver Quality' Award from Bajaj Auto and the Bronze Award at the International Convention on Quality Circle in South Korea, the latter being for the first time in an international convention. We also won several industry awards in Quality Circle Events.

WAY FORWARD

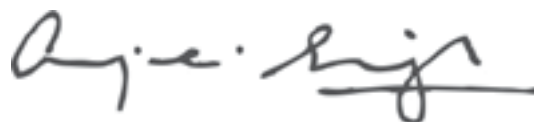

The Indian GDP is expected to grow by 7.8% in FY2017, and around 8% in FY2018. In addition to continuing its current initiatives further reform measures from the government, like implementation of GST, simplified and transparent fiscal laws and measures to attract foreign investments in infrastructure will further accelerate the growth of the Indian economy and automotive industry.

Exports and Aftermarket will be the major drivers in our future growth. Our focus in developing these businesses will be to strengthen the 'Gabriel Brand', achieve greater market penetration in India, development of export markets and new product development and launches.

We will provide a renewed impetus on strengthening the 'Culture of Quality and Safety' across the company. By deploying world-class quality and safety standards, tools and systems, we will bring focus in both manufacturing processes and corporate services to internal and external customers. Nothing short of 'Best in Class' will suffice.

As always, we will continue to work diligently on building a culture of performance and to 'Deliver on our Commitments'.

With my best wishes,

Anjali Singh

Managing Director's Message to Shareholders

We are always underscoring our research and development efforts, with a continued focus on innovations that yield substantial benefits to customers. We are continuously reinforcing our brand, retailer connect and enhancing brand recall.

Dear Shareholders,

FY2016 has been an eventful year for Gabriel India Limited – one of optimism and renewed vigour. We delivered strong growth in Commercial Vehicles, Passenger Cars and Aftermarket sales and also improved our profitability. This was in the backdrop of an uncertain macro-economic environment and dwindling 2-Wheeler sales, as industry growth was largely driven by new launches in Passenger Cars, Commercial Vehicles and Scooter segments. Our ability to continuously introspect and rapidly execute the requisite changes, pertaining to the external and internal environment, truly makes us a pioneer in our own right.

During the year, we leveraged our strong brand and distribution network by launching new products and product lines. Our constant endeavour was to sustain our leadership position in the shock absorber domain, aided by new contract wins across segments. In exports, we carried forward our strategy of entering new geographies and securing new business.

BRAND REINFORCEMENT

Being an established domestic player doesn't give us the license to be complacent. We are continuously sharpening our local advantage, while strengthening our global competitive edge. We are always underscoring our research and development efforts, with a continued focus on innovations that yield substantial benefits to customers. We are continuously reinforcing our brand, retailer connect and enhancing brand recall. Driven by customer centric inventions, we are continuously rolling out interesting products that fortify our already robust portfolio. Further, to drive optimal organisational efficiency across our operations, we are meticulously focussing on improving cost management and working capital management, strengthening the supply chain and improvising capacity utilisation of our manufacturing plants.

REVENUE AND CHANNEL MIX

Our sales to Commercial Vehicles and Passenger Cars have gone up as a share of total sales. Aftermarket sales also improved to

13% from 11% in FY2015. We partnered with several automobile manufacturers during the year for new launches across segments. This included passenger vehicles such as Maruti S-Cross, Maruti Vitara Brezza and Mahindra KUV100; 2-Wheelers such as Royal Enfield Himalayan and Mahindra Mojo; Commercial Vehicles such as Mahindra Jeeto, DAIMLER Buses and several other launches. In our Railways vertical, we are working towards adding new products to service the increased requirement for high-speed coaches.

FINANCIAL PERFORMANCE

Even though our top line hasn't grown well, our bottom line continues to witness an improving trend. We recorded revenue from operations of Rs 14,382 million during the year, compared Rs 14,441 million in the previous financial year. The drop in sales was primarily owing to a decline in the 2-Wheeler segment and commodity price correction being passed on to the customers. We clocked 12.7% CAGR in sales over a six year period (between FY2010), which is higher than the average for the automotive industry.

EBITDA was Rs 1,276 million during the year under review, as against Rs 1,168 million in FY2015. EBITDA margin too has been rising consistently from 6.9% in FY2013 to 8.9% in FY2016. Profit After Tax was Rs 752 million (5.3% of sales), compared to Rs 600 million (4.2% of sales) in FY2015, despite absorbing the impact of bonus payment, arising due to retrospective amendment of Bonus Act, 1965. PAT recorded 21% CAGR during FY2016. Better working capital management and cost control also led to improvement in ROCE, which improved to 26.8% in FY2016, up from 25.7% in FY2015. We closed the year with a cash balance of Rs 362 million, which has been invested in fixed deposits.

BETTER PROFITABILITY AND PREDICTABLE GROWTH

Our EBITDA margins improved during the year due to better working capital management, better cost controls and operating leverage benefits. Margins also expanded as a result of efficiency

Managing Director's Message to Shareholders

“We are also unleashing the power of Brand Gabriel and leveraging our relationships with global OEMs in India to penetrate their global operations. We foresee untapped potential in several key markets across Europe, Africa and America, even as our focus on the Asian market remains intact.”

**MANOJ KOLHATKAR***Managing Director*

gains due to cost rationalisation, softer raw material prices and higher contribution from exports and Aftermarket. Yet another driver for enhanced margins has been our improved product mix. Several new products which connected well with the distribution network also led to improved market sales.

STRENGTHENING LOCALLY, ASPIRING GLOBALLY

Our aspirations are not confined to India's boundaries. We are also building a solid exports-driven global business by leveraging our diversified product portfolio and making inroads into lucrative overseas markets. We are also unleashing the power of Brand Gabriel and leveraging our relationships with global OEMs in India to penetrate their global operations. We foresee untapped potential in several key markets across Europe, Africa and America, even as our focus on the Asian market remains intact. Concurrently, there is healthy potential for exports and we are continuing to make concerted efforts in this area, although actual conversion of orders into sales volumes may take a while.

IMPROVEMENT IN AFTERMARKET

Our overall business is strongly supported by the Aftermarket segment. During the year, we improvised on our product range considerably, particularly in the 2-Wheeler segment. We launched new allied products and product lines and continued to leverage our existing the distribution network.

WAY FORWARD

We are uniquely positioned to grow across segments and channels – both locally and globally, given the depth of our portfolio, strategic partners, sound technology, strong financials, brand equity and, above all, a great team. We anticipate a spurt in demand and sales

this year, given a positive outlook on monsoons and implementation of the Seventh Pay Commission, which we hope will facilitate the auto OEM revival. Gabriel is well positioned to benefit from the expected revival.

The journey ahead of us is indeed riveting. We, at Gabriel, shall continue our focus on technology, efficiency improvement, sustainable manufacturing and exports. Our passion, professionalism and perseverance of working with our customers, partners and with each other gives us an exceptional future outlook.

I take this opportunity to thank our shareholders for their unflinching support and also thank our employees for their dedicated efforts.

We stand firm in our commitment to build a sustainable business and deliver value to all our stakeholders.

Warm Regards,

Manoj Kolhatkar

OUR KEY VALUE-BUILDING STRATEGIES

Our Key Value-Building Strategies

ENGINEERING EXCELLENCE

Comfort and safety for automobile users is our ultimate aim. Our vision is to be a global manufacturer of Ride Control products and to be a benchmark in product engineering, quality, cost, delivery and speed of response. Our key focus areas in R&D are application engineering, equipment and process engineering, and innovation and is based on three broad principles. One, developing light weight products at competitive costs. Two, developing products that will last longer with reduced replacement cycle. Three, manufacturing of affordable embedded electronics for key products.

WORLD-CLASS R&D CENTRES

We continue to invest in futuristic technology to enable robust design and faster launch of new products. We are committed to spend 15-20% of our total capital expenditure towards R&D every year. Our recurring and capital expenditure on R&D for FY2015-16 is around 1.33% of sales, an increase over the previous year.

We have a continued focus on customer-centric R&D yielding substantial benefits through three state-of-the-art R&D centres at Chakan, Hosur and Nashik. These facilities have hi-tech equipment and unmatched facilities, approved by the Department of Scientific and Industrial Research (DSIR), Ministry of Science and Technology, Government of India. They possess proven capability for end-to-end product development, including conceptualising, designing, prototyping, testing and validation.

Our R&D Centres help improve speed, agility and quality of product development and also in incorporating product improvements, leading to increased customer satisfaction and reducing time-to-market. Customers use these centres to conduct ride tuning exercises, and also on-site through custom built mobile Ride Tuning Van. The Hosur R&D Tech centre with around 30 engineers is

dedicated to the 2-Wheeler Business Unit. Through this world-class centre, we co-develop (with OEM customers) products which are cost effective and suitable for Indian road conditions.

INTEGRATED SOLUTIONS PROVIDER

We are a complete solutions provider for Ride Control. We are the first Indian company to indigenously develop shock absorber sets for high-speed railway trains. We have pioneered the development of new technology for products used in sports motorbike. We have developed the first Adjustable Electronic-Hydraulic Shock Absorber for a leading SUV vehicle in the Aftermarket. We have in the past earned national recognition for manufacturing light weight shock absorbers, and also bagged the Golden Peacock Eco Innovation Award for the same.

INNOVATION

Innovation is the key theme across all our plants and central functions. We have identified 250 Innovators within the Company, who have acquired the skills of creating value, thinking out-of-the box, innovating cultural change and challenging the fundamentals. The outcome of this initiative has been savings on energy and the innovation of products. In the coming years, we expect to double the number of innovators and making innovation a "Way of Life" at Gabriel.

Our Key Value-Building Strategies

FINANCIAL STRENGTH

We are dedicated to deliver better profitability coupled with predictable growth. Our efficiency improvement measures are having a positive effect. During FY2016, we improved our EBITDA by 81 basis points to 8.9%, as compared to 8.1% in FY2015 and 7% in FY2014, through better control on costs and taking full advantage of our operating leverage. This steady improvement has been the result of our focus on improving efficiencies at our plants, improving product quality, moderating costs and scaling production. This is also the result of our presence across segments and our enlarged product portfolio.

Our ROCE, too, has been on an uptrend – improving from 18.8% in FY2014 to 25.7% in FY2015, and further to 26.8% in FY2016. We have achieved this on the back of prudent capital expenditure control and an improvement in the volume of working capital required. Our continued focus on cash flow has led to control on working capital and building a cash balance of Rs 362 million as on March 31, 2016.

Our constant focus on cost control has led to reduction of expenses from 14.3% as a percentage of sales to 11.7% over last three years. Our debt reduction from Rs 1,505 million in FY2010 to Rs 112 million in FY2016 has helped deleverage our balance sheet. Our debt to equity ratio is 0.03. We discontinued acceptance of public fixed deposits with effect from November 2015 and the outstanding amount of Rs 59 million will be repaid over its original maturity. Overall, we have the benefit of a strong balance sheet.

Our Capital Expenditure in FY2016 was Rs 388 million, compared with Rs 348 million in FY2015. Going forward, based on our existing plans for product launches and plant upgradations, our Capital Expenditure will be maintained at moderate levels in FY2017.

We are excited about our future. We are persistently exploring ways to further improve our top line growth and profitability. We continue to work with revenue enhancing and efficiency improvement measures to capitalise on the favourable position we have in a growing market for auto components. We are further optimising our plant efficiencies by improving engineering quality, reducing rejection levels and improving overall productivity. Our focus will be on growing revenue, bringing down costs further and increasing our quality.

We are excited about our future. We are persistently exploring ways to further improve our top line growth and profitability. Our focus will be on growing revenue, bringing down costs further and increasing our quality.

Our Key Value-Building Strategies

GREAT PLACE TO WORK®

At Gabriel, HR practices and processes have always been far-sighted and employee centric. Our value proposition to employees is based on a strong focus on employee development, exciting work culture, competitive compensation and the pursuit of excellence. A motivated and empowered workforce gives us flexibility in adapting to future needs of our business.

We offer a unique and great work culture and a spectrum of opportunities for employees to explore and grow. The Company offers job rotation, multi-function responsibilities and overseas secondment to encourage cross-functional exposure and cross-pollination of ideas. Our leadership development programmes are aimed towards grooming future leaders by giving them a holistic perspective and enhancing their knowledge capital.

EMPLOYEE TRAINING

1. We invested in training for Lean Manufacturing, Kaizen and Six Sigma, strengthening technical and management capabilities.
2. We participated in various programmes of ANAND Group, such as ANAND Leadership Development Programme (ALDP) and ANAND Mentor Programme, strengthening our human capital.

3. We continued our institutionalised growth plan (Engineer's Pipeline) which provides employees with the opportunity to gain knowledge across critical domains (production, product and process engineering, maintenance, quality, supply chain, IT, human resource, administration and finance).

Training programmes for soft skill development such as leadership, time management, personality development and stress management were also organised.

PEOPLE PRACTICES FOCUS

Our employees are team players trained with the right skills to deliver customer satisfactions all the time. Our philosophy and innovative people practices have earned the Company an efficient and dedicated workforce. We have a people-practices focus on personal and professional development to align individual goals with organisational objectives.

Gabriel has been duly recognised for its employee centric philosophy by the Great Place to Work (GPTW) Institute. Gabriel has won the GPTW award in 2012, 2015 and 2016. In 2015 we were the 2nd ranked company within "Automotive Sector" and 43rd overall.

COMMITMENT TO THE ENVIRONMENT

Sustainable Development meets the needs of the present, without compromising the ability of future generations to meet their own needs. At Gabriel India, sustainability is a value. We are on our way to establish ourselves as India's most sustainable auto components manufacturer.

The Company continues to focus on green initiative and is working towards making eco-friendly products. During the year under review, the Company embarked on the following activities:

- Harnessing green energy from solar plant located at Chakan and Hosur plants
- Initiatives such as sourcing of green energy and usage of waste heat for improving equipment efficiency
- Using LED lighting technology at our plants for improving energy efficiency
- Extensive tree plantation

Sustainability is considered in every stage across the life cycle of the products. We continue to invest in innovative technologies, which will contribute towards developing more efficient vehicles and environmentally friendly production.

We are focussing on renewable sources of energy. Since 2011, we have reduced CO₂ emissions of 4 lakh tonnes, equivalent to 7 lakh mango trees or 10,000 acres of plantations. We continue to upgrade our technologies to reduce carbon footprint and carry forward our commitment to sustainability.

At Gabriel India, sustainability is a value. We are on our way to establish ourselves as India's most sustainable auto components manufacturer.

Our Key Value-Building Strategies

EXPORTS

Currently, we predominantly export into the USA, Italy, Japan, Iran and Columbia in the OEM and Aftermarket. During FY2016, we recorded exports of Rs 586 million, a growth of 6.2% compared to Rs 552 million in FY2015. Correspondingly, exports as a proportion of sales increased from 2.8% in FY2014 to 4% for FY2016. Moving ahead, our objective is to enhance this to double-digit range.

Our recent export orders include Mahindra GenZe USA for e-Scooter and ISUZU Commercial Vehicles for Thailand and Indonesia. We have a steadily growing presence in markets such as South Asia, Africa, Latin America and Australia. Moving ahead, we are focusing to increase our presence in Aftermarket of South East Asian countries.

Through market research and systematic approach, we are exploring global opportunities and high potential export markets. We are widening our customer reach and enhancing quality standards to ensure our products are readily qualified to meet and exceed our customers' stringent approval standards. Our aim is to reduce our dependence on the Indian market, enhance our competitiveness and accelerate revenue growth.

Our Key Value-Building Strategies

AFTERMARKET

We have a 375-strong dealer network across India with 6,000 retail outlets, supported by a highly-trained Gabriel sales force. We have established a leading position in Aftermarket through launch of new products, improved engagement with the distribution network and quality products.

Our sales in Aftermarket touched Rs 2,008 million in FY2016, compared to Rs 1,712 million in FY2015, registering a 17% growth.

ELITE RETAILER PROGRAMME

The Company's "ELITE RETAILER" programme is a key initiative to strengthen the Gabriel brand and connect with retailers. In the first phase, 500 premier retailers have been selected for this programme. We are aiming to connect with retailers emotionally, understand their specific needs and to improve loyalty. We plan to reach another 1,500 by 2018.

In the second phase, we are working towards reaching out to mechanics and establishing relationship with them through the retailers. Towards this, we conducted many mechanic meets during the year.

BRAND RECALL

Gabriel is a well-established brand and has a good recall in the Aftermarket. We conduct regular activities to create brand visibility across India. We continued to participate in OEM managed sports events such as the Suzuki Gixxer Cup and VW Vento Cup through sponsorships. We strongly believe that students are our potential customer and employee base, hence this year we sponsored college festivals in prestigious institutes. Going ahead, we plan to further strengthen the brand and look for innovative avenues to promote Gabriel.

Gabriel India is one of the key sponsor for Suzuki Gixxer Cup, 2016

MANAGEMENT DISCUSSION & ANALYSIS

Volkswagen Motorsport India

Management Discussion & Analysis

Favoured with various advantages such as access to a globally competitive automobile industry; supply of locally produced raw materials at low costs; availability of highly skilled manpower at competitive wages, and a mature ecosystem of testing and R&D centres, India's automobile industry provides immense investment and employment opportunities.

ECONOMIC OVERVIEW

India, the seventh largest economy in the world, in terms of nominal GDP, recorded a five-year high growth rate of 7.6% in FY2016. Despite all the headwinds, domestic and external, the Indian economy remains in a sweet spot in comparison to previous years, making it one of the world's fastest growing economies. According to the Central Statistics Office (CSO), the robust growth was primarily driven by growth in services (9.2% in FY2016) and industry (7.3% in FY2016). With the current growth trajectory, India is now growing at a faster rate than China.

The Government has also taken several steps to improve the country's economic environment, including simplifying approval procedures, reforming the tax regime and addressing the issue of subsidy leakage. Foreign investment inflow into the country increased by 39% in 2015. India climbed 12 notches on the World Bank's 'Ease of Doing Business Index'. An integrated set of initiatives, including Make In India, Start-Up India and Skill India, are also expected to help significantly in job creation and growth.

INDUSTRY OVERVIEW - AUTOMOBILES

According to the Confederation of Indian Industry (CII), the Indian automobile industry is one of the largest in the world, having grown by 2.6% over the previous year. It is one of the key drivers of economic growth, contributing 7.1% to India's Gross Domestic Product (GDP). Since de-licensing of the sector in 1991 and subsequent opening up of 100% FDI through the automatic route, the sector has come a long way. Today, almost every global auto major has set up facilities in India to cater to the growing middle class and young population.

The industry has a promising future in India. Apart from meeting growing domestic demand, it is also gradually penetrating international markets. Favoured with various advantages such as access to a globally competitive automobile industry; supply of locally produced raw materials at low costs; availability of highly skilled manpower at competitive wages, and a mature ecosystem of testing and R&D centres, India's automobile industry provides immense investment and employment opportunities.

Industry Size

The automobile industry produced a total 23.96 million vehicles during FY 2016, including Passenger Vehicles, Commercial Vehicles, 2-Wheelers and 3-Wheelers, as against 23.36 million in FY 2015. Domestic sales of Passenger Vehicles grew by 5.97% in FY 2016 over the same period last year. Within Passenger Vehicles, Passenger Cars grew by 4.02% during FY 2016, over FY 2015. The growing interest of companies in exploring rural demand further aided growth of the sector.

Production, Sales and Exports

As per the industry data published by the Society of Indian Automobile Manufacturers Association (SIAM) for FY2016, domestic sales stood at 20.46 million units, an increase of 3.78% as against 19.72 million units sold in FY2015. Export for the year showed a marginal rise of 1.91% at 3.64 million units.

Key Growth Drivers

Emerging Middle Class

As economic prosperity spreads across demographics, mobility is no longer considered to be a luxury, but a necessity by Indians. By 2021, India's emerging and middle-class segments will comprise nearly 900 million people and the auto industry in India is expected to greatly benefit from this growth as a majority of India's middle class aspires to own a car. A middle class consumption lead growth is also likely to impact the overall economy positively, driving up the demand for 3-Wheelers and Commercial Vehicles.

Burgeoning Infrastructure Development

India has made consistent and steady progress in building new roads, highways, expressways and support infrastructure such as airports, ports, railways and power plants. The expansion and modernisation of our core infrastructure are also major drivers of growth for the automobile industry.

Rural Market

The automobile industry is yet to fully tap into the demand from rural areas. A gradual but steady growth in demand for Passenger Vehicles is being witnessed in rural areas. The Indian automobile industry seeks to double its total sales on the back of this steady rural lead growth over the next decade. It is also expected to grow off the relatively untapped segments like the demand from youth, women and for luxury cars.

World standing of Indian Automobile Sector:

- Largest 3-Wheeler market
- Second largest 2-Wheeler market
- Tenth largest Passenger Cars market
- Fourth largest Tractor market
- Fifth largest Commercial Vehicle market
- Fifth largest Bus and Truck segment

Management Discussion & Analysis

The Export Advantage

India is also a prominent auto exporter and has strong export growth expectations for the near future. Automobile exports have grown by CAGR of 14.65% during the five year period 2010-15. Passenger Vehicles, Commercial Vehicles, 2-Wheelers and 3-Wheelers individually grew by 6.9%, 13.7%, 18.7% and 16.6% CAGR respectively during the same period. 2-Wheelers accounted for the largest share of exports at 69.4%. Passenger Vehicles comprised a sizeable 16.7% of the overall exports. 3-Wheeler vehicles registered around 11.1% share in exports.

INDUSTRY OVERVIEW – AUTO COMPONENTS

According to a report by Society of Indian Automobile Manufacturers (SIAM), the Indian auto sector has the potential to generate up to USD 300 billion in annual revenues by 2026, creating 65 million additional jobs and contributing over 12% to India's GDP. The Indian auto components segment currently stands at USD 40 billion, with exports of USD 11.2 billion.

According to Automotive Component Manufacturers Association of India (ACMA), the Indian Auto component industry is expected to register a turnover of USD 100 billion by 2020, backed by strong exports. It is set to become the third-largest in the world by 2025. Indian auto component makers are well positioned to benefit from the globalisation of the sector as export potential is expected to be increased by up to four times to USD 40 billion by 2020.

A strong growth in the automobile market has propelled growth in the auto components industry, which now accounts for almost 1.8% of India's GDP. The industry employs as many as 19 million people, both directly and indirectly, i.e., around 4.2% of India's total employed workforce, and this is expected to rise to 25 million by 2025. The industry can be broadly classified into the organised and unorganised sectors. The organised sector caters to the Original Equipment Manufacturers (OEMs) and consists of high-value precision instruments, while the unorganised sector comprises low-valued products and caters mostly to the Aftermarket category.

Management Discussion & Analysis

Industry Outlook – Auto Components

The Indian market is evolving as the next big opportunity and component manufacturers from across the world see it as a natural extension of their business domain. With high skill levels in a competitive environment, India is expected to steadily grow in the vehicles segment in the coming years.

After the slowdown of the past two-three years, overall auto sales in FY2016 grew 2.58%, compared with 8.68% in fiscals 2014 and 2015. Declining inflation, growth in urban disposable income and lower borrowing costs are likely to boost car and motorbike sales. Besides, as industry recovers, the demand for freight will also increase, pushing up Commercial Vehicles, 3-Wheelers and truck sales too. Measures to boost the rural economy announced in Union Budget 2016-17 are expected to shore up rural incomes and consumption in the next couple of years. The Seventh Pay Commission awards and lower borrowing costs should also increase disposable income of consumers. A normal monsoon for 2016 could be an added boost. The positive spillover effect of these will be seen in 2-Wheeler and 3-Wheeler sales. Besides, light Commercial Vehicles sales are also beginning to look up in the last two-three months. The auto components industry will experience a turnaround from 2-Wheeler and small truck sales.

COMPANY OVERVIEW

The history of Gabriel dates back to 1961, when Mr. Deep C. Anand (Founder of the ANAND Group of companies) launched his very first business venture - Gabriel India in collaboration with Maremont Corporation for manufacturing of shock absorbers. Today, under decades of efficient management, we are the pioneer and leading manufacturer for Ride Control products in India with a substantial share in the Commercial Vehicles, Passenger Vehicles and 2 and 3-Wheeler segments. Our portfolio includes the widest range of Ride Control products in the business, comprising of shock absorbers, struts and front forks for every automotive segment. Since our inception, we have been one of the leaders in manufacturing Ride Control products in India. Today, our brand “Gabriel” is synonymous with shock absorbers and struts.

We have also been a trusted supplier to the Indian railways, addressing the need for Ride Control solutions for over three decades.

We offer varied products across segments and cater to any customised requirements. Our Ride Control products for various segments are marketed across ASEAN, Iran, USA, Latin America, North America, South Africa, Europe, Australia and Asia Pacific.

*Management Discussion & Analysis***OUR MANUFACTURING CAPABILITIES**

Starting with a single plant in Mulund (Mumbai) in 1961, Gabriel India today has seven manufacturing facilities, two satellite plants and three R&D Centres across the country. Gabriel has always been committed to its customer needs, which has led the company to invest in capacity expansion and infrastructure whenever a particular project required it. Today, Gabriel produces one shock absorber every second. We are constantly adding to and broadening our product line and industry coverage, while continuously looking to improve on our high standards in quality, testing and validation. The company offers a complete basket of Ride Control products to every major vehicle manufacturer in the country across segments.

Our manufacturing facilities are spread across the country located at Chakan, Nashik, Hosur, Dewas, Khandsa, Parwanoo, Sanand and two satellite plants at Malur & Aurangabad. With a combined capacity, these facilities cater to the requirements of all segments of the market.

Three best-in-class R&D Centres located at Chakan, Hosur and Nashik form the fulcrum of all our new product development with facilities for fundamental design and development, future

technology assimilation, product validation apart from ride and handling facilities. All our R&D centres are approved by the Govt. of India's Department of Scientific Industrial Research (DSIR). We have filed 21 patents in products and processes.

PRESENCE ACROSS THE VALUE CHAIN

Our presence across each segment of the auto industry is a key advantage. We also have a strong network spanning across all channels of automotive sales, including OEMs, Aftermarket and Exports.

OEM Business: Gabriel is known as the leading automotive OEM supplier for Ride Control products in India. Our OEM business witnessed de-growth of 2% and represents 83% of our total top line for the period under review.

With a well-diversified OEM customer base in 2-Wheelers, 3-Wheelers, Passenger Cars and Commercial Vehicles, Gabriel participates in all parts of the total addressable market. Over decades of steady and consistent progress, we have painstakingly evolved the advantage of owning and servicing a balanced, portfolio of OEM customers.

Today, Gabriel produces one shock absorber every second. We are constantly adding to and broadening our product line and industry coverage while continuously looking to improve on our high standards in quality, testing and validation.

Management Discussion & Analysis

Aftermarket Business: Gabriel continues to be one of India's most trusted Aftermarket brands for Ride Control products in the automotive industry. Today, as per our FY2016 results, we derive significant amount of revenue from the demand in Aftermarket segment. Considering the fact that the "After-sales" market is fast growing and a strong driver for higher margins, our YOY growth of 17% within this Business Unit is a strong contributor to our improving EBITDA. The company has been highly successful in its Aftermarket Exports and has established a strong presence in the replacement markets for the 2 and 3-Wheeler segment in South Asia, South Africa & Latin America.

To leverage our already established "Gabriel" brand and our extensive after-sales channels further, we have introduced new products such as motorcycle wheel rim, 2 and 3-Wheeler tyres, and also other automotive products such as radiator coolants, oil seals, gas springs, suspension bush kits and front fork oils as complementary products to our existing portfolio. These portfolio extensions are being well received by the marketplace and are adding further solidly to our revenue and profitability.

Exports Business: Gabriel exports Ride Control products to developed markets in North America, Europe, Australia and the Asia-Pacific region. Our exports business grew by 6.2% and contributed 4% to our topline in FY2016. The Company's focused approach on exports has opened multiple global opportunities including few breakthroughs in high potential markets. Through structured market research, systematic approach and a dedicated marketing team, we have made a start in the right direction. During FY2016, we recorded exports of Rs 586 million, as compared to Rs 552 million in FY2015, and we foresee promising exports in FY2017 onwards. We won an export order from Mahindra GenZe USA for e-Scooter and another from ISUZU for Thailand and Indonesia. We are focusing to develop the replacement market in South East Asian countries.

BUSINESS UNIT-WISE PERFORMANCE

a) 2-Wheelers & 3-Wheelers

With the industry facing challenging times in view of tepid rural demand, slowing exports and currency depreciation, we concentrated on improving and sustaining our EBITDA and profitability. We focused on improving efficiencies and productivity at our plants by improving quality and reducing rejection levels. We paid attention to potential projects that yield higher margins and reduced our raw material costs. We also took several new initiatives in innovation and technology to enhance energy efficiency. On the R&D front, we built our own Test Track at the Hosur plant, an in-house facility for customers for tuning the ride of vehicles and shortening the lead time for testing.

Having supplied to Peugeot for exports markets, we are now tapping other customers for similar opportunity. We continue to service the 2-Wheeler market in Indonesia through TVS Motors. We signed a technical license agreement with Gabriel De Colombia as the technology provider to serve Indian OEMs in Latin America. We also have a small but growing presence in the eco-friendly 2-Wheeler market in United States as we serve the Indian automaker Mahindra for its e-Scooter from GenZe in the USA. We have also won an Letter of Intent from Hero Cycles for supply of performance shock absorber, thereby entering into bicycles shock absorber segment.

b) Passenger Cars

We are the second-biggest player in passenger vehicle suspension market in India. The Passenger Cars Business Unit contributes 31% to Gabriel India's total revenue. The Business Unit registered a double digit growth and a significant improvement in the operating margins. We are key suppliers to recent industry launches such as Mahindra's KUV100 and Maruti Suzuki's Vitara Brezza and S-Cross. Three of our plants are dedicated to manufacturing components for Passenger Cars. The plants at Chakan and Khandsa cater to OEM customers, while the Parwanoo plant caters primarily to the Aftermarket Business Unit. During the year, the Parwanoo plant received ANAND Group's Excellence Award for "Best Anand Heijunka Production System Implementation".

We are putting efforts to continuously increase our market share in the domestic market. Our business pipe line has been strengthened with recent vehicle launches and customer acquisitions last year. One plant is now approved by a global car manufacturing company to enable exports from India. We also began exports to Volkswagen Russia from our Chakan factory. Going forward, exports will continue to be a key area of business development focus and the Company has identified target geographies for new launches.

c) Commercial Vehicles & Railways

We are the largest suppliers to all OEMs in the Commercial Vehicles segment across Light Commercial Vehicles (LCV), Medium Commercial Vehicles (MCV) and Heavy Commercial Vehicles (HCV). The Business Unit contributes about 11% to Gabriel India's total revenues. We are major suppliers to Tata Motors, Ashok

We are key suppliers to recent industry launches such as Mahindra's KUV100 and Maruti Suzuki's Vitara Brezza and S-Cross. Three of our plants are dedicated to manufacturing components for Passenger Cars.

Management Discussion & Analysis

Leyland, VECV, Mahindra Trucks & Buses, MAN Trucks and DAIMLER. We have increased market share in the LCV segment and have made good progress in small trucks such as TATA Ace and Mahindra Jeeto.

Our key area of focus has been to strengthen locally and aspire globally. During the year, we aimed at increasing market share in LCVs and gaining visibility in India and key geographies across the globe. We have a technology license agreement with KONI B. V., The Netherlands to manufacture and sell innovative damper products for OEMs in India, Bangladesh, Sri Lanka, Nepal and Bhutan. Our export order with ISUZU Global is facilitating us to strengthen our presence in the ASEAN region. We are also exploring other key markets of North America and Europe. Exports are a clear growth driver as we continue to explore global markets in this segment.

We are a trusted partner of the Indian Railways, supplying them with Shock Absorbers. We have emerged as the first Indian auto components company to be qualified as LHB (Linke-Hofmann-Busch) shock absorber supplier for Indian Railways. Thus in addition to conventional trains, we will now cater to high-speed trains as well.

d) Aftermarket

Gabriel has achieved a leadership position in the Aftermarket Business Unit. Sales in the Aftermarket Business Unit touched Rs. 2,008 million in FY2016, as compared to Rs 1,712 million in FY2015, registering 21% CAGR during FY2015. We leverage our vast distribution network comprising 375 Channel Partners across India, supporting about 6,000 retail outlets, coordinated and serviced by a highly trained sales force.

TECHNOLOGY

The Company has continued focus on customer-centric R&D which yields substantial benefits. It continues to invest in futuristic technology and R&D activities to enable robust designs, customer satisfaction and faster launch of new products. The state-of-the-art R&D and testing centres have strengthened our ability to co-develop (with OEM customers) products which are cost-effective and suitable for Indian road conditions. We have world-class centres which encompasses product and process design as well as prototyping and evaluation. The Centre will help us improve our speed, agility and quality of product development, thus increasing customer satisfaction.

The Company has developed cutting-edge manufacturing technology indigenously. This is mainly due to its focus on developing new technologies in manufacturing compatible to its product requirements. The process and product designers work hand in hand to innovate manufacturing technology of world class standard that helps all its manufacturing locations to produce high quality products.

The company continues to have of technical assistance through its association with KYB Corporation, Japan for Passenger Cars; KYBSE, Spain for Passenger Cars and Commercial Vehicles; Yamaha Motor Hydraulic Systems, Japan for 2-3 Wheelers. The company also recently collaborated with KONI B.V., The Netherlands, for Commercial Vehicles and buses. KONI is part of ITT Corporation, USA with more than 150 years of experience in the area of shock absorber solutions.

As a significant technology milestone, Gabriel has signed a Technology Assistance Agreement (TAA) with Gabriel De Colombia (GDC) wherein Gabriel India will provide product & process technology to GDC in the field of 2-Wheeler suspension systems. Further, Gabriel India has also started its association with Gabriel South Africa to provide and upgrade manufacturing technology.

INTERNAL CONTROLS & SYSTEMS

The Company has well-established internal control systems, which are continuously evaluated by professional internal and statutory auditors of repute. The company continues to improve the present internal control systems by implementation of appropriate policies and processes. The Company is focused on incorporating the controls and checks in ERP system of SAP. An increased emphasis has been laid on Internal Control Systems and Vigilance Systems to ensure efficacy and monitoring of the Company's operations, compliance with applicable legislation, safeguarding of assets, adherence to management policies and promotion of ethical conduct. A dedicated Legal Compliance Cell ensures that the Company conducts its business with high standards of legal,

statutory and regulatory compliances, conforming with the best standards. The Audit Committee reviews the internal control systems and procedures periodically. The Company maintains a system of internal controls designed to provide a high degree of assurance regarding the effectiveness and efficiency of operations, reliability of financial controls and compliance with laws and regulations.

HUMAN RESOURCES

Gabriel is recognised for boldly leading change in thought and action. Gabriel offers a unique and great work culture and a spectrum of opportunities for employees to explore and grow. Our employee value proposition is based on a strong focus on employee development, exciting work culture, competitive compensation and the pursuit of excellence. A motivated and empowered workforce gives us flexibility in adapting to future needs of our business.

Great Place to Work

Gabriel India Limited has been ranked among "Great Place to Work®" in the auto components industry for year 2012, 2015 and 2016. We strengthened our reputation for the ability to transform our employees into business leaders. We recruit a young and dynamic team and nurture and groom them into visionary future leaders through highly effective and comprehensive programmes of training, coaching, mentoring and learning. Our leadership development and mentorship programmes are aimed at grooming future leaders by giving them a holistic perspective. Our employees are exposed to training techniques in Lean, Kaizen and Six Sigma which ensures their technical and management capabilities are strengthened. Various mentor and leadership programmes enable us in enhancing our human capital. The Company also develops out a growth plan for its employees - in production, maintenance, quality, supply chain, IT, human resource, administration and finance. It is these initiatives that go towards making us a "Great Place to Work®".

Management Discussion & Analysis

Our state-of-the-art R&D and testing Centres have strengthened our ability to co-develop (with OEM customers) products which are cost-effective and suitable for Indian road conditions.

Pioneer of HR Processes

- Pioneered “Operating Engineer” model for harnessing knowledge workers and building a talent pipeline for first line of management.
- Put in practice “Grow from Within”, which is an integral part of our philosophy across levels within Gabriel.
- Redefined norms by hiring women on the shop floor by providing them several key benefits aimed at women empowerment.
- It appointed a diverse and multi-cultural workforce across all the plants.

ANAND U

ANAND U, the corporate university of the ANAND Group, covers the diverse needs of companies within the ANAND fold. It focuses on four major areas of people development – operational excellence,

talent development, technical intervention and development of a large force of operating engineers within the Group. In addition to this, employees also attend external education programmes to learn to deal with the dynamics of constantly evolving business challenges in an ever-changing global environment. The employees also attend manufacturing excellence programmes for developing their skills. Gabriel is one of the main beneficiaries of all these programmes and most of its employees are exposed to atleast one of the programmes.

The OE Model

Gabriel has set up an industry benchmark for shop floor practices with a non-unionised workforce. This is a unique industry recognised “Operating Engineer” (OE) development model aimed at harnessing knowledge workers in a manufacturing environment. The OEs undergo training and induction in the areas of production, quality and environment. The induction training structure of the model inculcates knowledge in: shop floor discipline, rules and regulations; basics of hydraulics, pneumatics and autonomous maintenance; and on industrial safety, knowledge of basic systems, etiquette and personality development.

People-Practices Focus

Our people-practices focus is on personal and professional development to align individual goals with organisational objectives. Our people philosophy and innovative people practices have earned us an efficient and dedicated workforce. We undertake special HR initiatives to develop a leadership pipeline and to ensure a productive and efficient workforce. Through this, our objective is to achieve manufacturing excellence and provide structured nurturing of people identified as Key Talent. Nearly 70% of the Company's employee base comprises engineers (including diploma holders). The ‘Gabriel First’ approach entails an internal job posting system wherein existing employees can apply for internal vacancies.

Management Discussion & Analysis

Our people philosophy and innovative people practices have earned us an efficient and dedicated workforce. We undertake special HR initiatives to develop a leadership pipeline and to ensure a productive and efficient workforce.

Creating a Safe Work Environment

At Gabriel, ethics and creating a conducive work environment is taken very seriously. A Committee oversees educating employees towards the sensitivities of work place etiquettes. All the plants and offices work closely with NGOs and conduct regular workshops to create awareness about sexual harassment.

Directors' Report

Directors' Report

To,
The Members,

Your Directors take pleasure in presenting the 54th Annual Report on the business and operations of the Company, together with the Audited Financial Statement for the year ended March 31, 2016.

Your Company reported similar Net Sales as compared to the last year. This was primarily due to limited growth in the 2-Wheeler segment of the automobile industry. However, the company has improved its Net Profit substantially during the year. This performance is the result of continuous focus on cost reduction, working capital management, customer orientation and leverage of core competence.

PERFORMANCE HIGHLIGHTS

The Company recorded total sales of Rs 14,264.18 million compared to Rs 14,298.40 million in FY15. The Company reported 9.2% growth in EBITDA, largely on account of volume growth in the Aftermarket, Passenger Cars & Commercial Vehicles Business Units and control of expenses, primarily raw material costs. The Company improved its EBITDA to 8.9% from 8.1% in FY15. The result was a Profit After Tax of Rs 752.38 million, compared to Rs 600.24 million in FY15, representing a 25% growth. The Earnings per Share increased to Rs 5.24 per share in 2015-16 from Rs 4.18 per share in FY15.

2 and 3-Wheelers

The Company's 2 and 3-Wheeler segment accounted for 58% of total revenues compared to 63% in FY15. Customers such as TVS Motors, Honda Motorcycles & Scooters (HMSI) and India Yamaha Motor accounted for a larger share of our business in FY16.

During the year, the Company focused on improving efficiency and productivity at its 2-Wheeler and 3-Wheeler plants by improving quality, reducing internal rejection rates and attaining energy efficiency.

The Company took initiatives to enhance its competitiveness for acquisition of new businesses, while also improving profitability. The Company upgraded the Sanand facility to service HMSI for their fourth factory in Vithalapur, Gujarat thereby further

strengthening its association. A 2-Wheeler test track facility was unveiled at Hosur near Bengaluru which enhances real time data capturing, analysis, tuning and benchmarking, which together will help in speeding up the development process. A Technology Day was conducted by the Company at Royal Enfield and Piaggio respectively to showcase its current and future technologies. In the term under review, the Company continued strengthening its association with major customers by working on new models of TVS Motors, Royal Enfield, Suzuki Motorcycles, India Yamaha Motors, Bajaj, Mahindra, Piaggio and UM Motors.

The Company won the 'Overall Cost Reduction' award from Suzuki Motorcycles and the 'Quality Circle' award from HMSI. It was also awarded 'Silver Quality' award from Bajaj Auto. In addition to this, it won the ACMA awards on Green Technology, Quality and Kaizen competitions.

Passenger Cars

The Company's Passenger Cars Business Unit accounted for 31% of total revenues compared to 28% in FY15. The Company addressed the needs of key customers such as Maruti Suzuki, Mahindra's, Volkswagen and Toyota Kirloskar. The Company is a key supplier to recent vehicle launches in the automotive industry such as Mahindra's KUV100 and Maruti Suzuki's Vitara Brezza and S-Cross.

In the period under review, the Khandsa and Chakan plants won 'HR Excellence Award' from ACMA and CII, respectively. All the three plants of the Passenger Cars Business Unit i.e. Chakan, Khandsa and Parwanoo aggressively followed the culture of using Quality Circles for addressing their key issues. A young team from Parwanoo became the first in the Gabriel and ANAND Group of Companies to represent and win a Silver medal in "International Convention on Quality Circle competition" held in South Korea last year. The Khandsa plant created a milestone for being ranked 'one' with Honda Cars consecutively for 33 months both in quality and delivery. Gabriel, Khandsa Plant also reduced its zero km defects PPM with Maruti Suzuki to less than 1 PPM in the previous year. The plants continuously worked on improving the manufacturing processes to achieve excellence in product quality. The Parwanoo plant changed its layout substantially with the aim of improving material flow and reduce cost. The Chakan plant is continuously working towards using renewable energy. Their efforts are recognized by both, customers and the industry.

Commercial Vehicles and Railways

The Commercial Vehicles and Railways Business Unit accounted for 11% of the Company's total revenues, compared to 9% during FY15. During the period under review, the Company worked towards increasing its market share. The Business Unit serves specific requirements of suspension products for Commercial Vehicles and railways.

In late 2014, the Company signed a technology license agreement with KONI B.V., The Netherlands, to address the requirement of high-damping force products and now offers the same to Indian customers. To expand its product portfolio, it is tapping the Intermediate Commercial Vehicle (ICV) segment and Cabin Shock Absorbers, which are projected to be launched in 2017. The Company is also expected to make a breakthrough with a European OEM Customer for the supply of shock absorbers. Gabriel Dewas Plant is the recipient of FICCI's 'Manufacturing Excellence Award' in 2015.

Indian Railways continues to undergo a transformative change in technology leading to safer and more comfortable coaches. The Company has emerged as the first Indian Auto Components player to bag an order to manufacture Linke-Hofmann-Busch (LHB) Dampers for Indian Railways. LHB Dampers are for the new passenger coach designs of Indian Railways, which are safer and capable of handling higher speeds of up to 200 kmph and are penetrating across all leading railway routes.

Exports

Over the years, the Company has been working towards improving its competitiveness for Exports.

The Company is focused on Exports to not only reduce its dependence on the Indian market, but to also establish itself as a global player.

In the 2-Wheeler segment, the Company is tapping key markets of Europe. It signed a technical license agreement with Gabriel De Colombia as the technology provider in Latin America. This will continue to earn exports revenue and also royalty. The Company also has a small presence in the eco-friendly 2-Wheeler market in United States through e-scooter from Mahindra GenZe. Gabriel also supplies 2-Wheeler parts to TVS Motors in Indonesia.

Directors' Report

Directors' Report (Contd.)

A key achievement has been the acquisition of business from ISUZU Global for Commercial vehicles in Thailand and Indonesia. As ISUZU is a leading player in the ASEAN countries, this order provides a notable step towards strengthening our presence in this region. The Company is also exploring export business opportunities in North America and Europe.

The Company continues to identify key geographies for exports in the Passenger Cars segment. While in the Aftermarket segment, the company is present across all the major market.

The Company's exports increased from Rs 552 million in FY2015 to Rs 586 million in FY2016, recording a growth of 6.2% year-on-year. Exports as a proportion of total sales was 4% in FY2016 as compared to 2.8% in FY2014.

Aftermarket

The Aftermarket Business Unit (domestic and export) reported 17% growth during the year, compared to the previous year. Revenues from the Aftermarket Business Unit (domestic and export), as proportion of sales, increased from 12% in FY2015 to 14% in FY2016. Growth in this Business Unit has been derived mainly from new product development strategy, launch of new product lines to leverage brand Gabriel and strategy to reach out to product users, retailers and mechanics.

The Company continued to strengthen its brand and retailer connect through the Elite Retailer Programme, which is a loyalty programme to enhance visibility and engage more customers. This is a unique initiative to strengthen brand Gabriel and connect with retailers. In the first phase, the Elite Retailer Programme was conducted across 500 retailers in FY2016. In the second phase, the Company is working towards reaching out to mechanics and establishing relationships with them through retailers.

The Aftermarket export division has appointed 15 dealers in new geographies in the last couple of years. It plans to further add 2-3 new geographies every year to give a stimulus to its export business. Allied products sales has been strengthened in the Aftermarket and two new products, Motor Cycle Wheel Rim and 2 & 3-Wheeler tyres, were added in the last two years. These new product lines have become important contributors to our Net Sales, in addition to core products, shock absorbers and struts. The Company has developed and launched its first Adjustable Electronic-Hydraulic shock absorber in the Aftermarket for a popular SUV model in India.

BUSINESS OUTLOOK

The prospects of the Company appear reasonably optimistic for a number of reasons.

The forecast for FY2017 is expected to be better. A positive outlook on the monsoon this year and implementation of Seventh Pay Commission may lead to a spurt in demand and sales. With the Government's 'Make in India' initiative likely to strengthen the case for manufacturing and with a moderate rise expected in GDP growth, the Indian Automobile and Auto Components sector appears poised for a reasonable growth. The Company's performance in the Aftermarket and Exports is expected to do better due to an improved thrust and focus.

OPERATIONS

The Company is pleased to report that operating efficiency across all its manufacturing plants enhanced during the year and led to improved profitability. Higher operating efficiency was a result of process improvements, constant benchmarking with available best practices, leveraging technology collaborations, employee training and a conducive working environment at all its plant locations.

DIVIDEND

Your Directors declared an interim dividend of Re 0.45 per equity share of Re 1 each (previous year Re 0.45 per equity share of Re 1 each). The interim dividend pay-out amounted to Rs 64.64 million (previous year Rs 64.64 million). This was distributed to shareholders, whose names appeared in the Register of Members as on November 17, 2015. Your Directors further recommended for the approval of shareholders a final dividend of Re 0.75 per equity share of Re 1 each (previous year Re 0.60 per equity share of Re 1 each).

The proposed dividend will amount Rs 107.73 million (previous year Rs 86.20 million). The dividend, subject to its declaration, will be distributed to shareholders whose names appear in the Register of Members as on July 22, 2016.

During the year under review, the unclaimed dividend pertaining to the financial year 2007-08 was transferred to the Investor Education and Protection Fund following a due notice to members.

COMPANY'S POLICY ON DIRECTOR'S APPOINTMENT AND REMUNERATION

The Company has in place a Nomination and Remuneration Policy, which was duly approved by the Board in the Financial Year 2014-15. The remuneration, in all forms, paid to the Managing Director was in compliance with the said policy. The remuneration to Non-Executive Independent Directors in the form of commission and sitting fees was also paid in terms of the said policy. The disclosure of the details of the Nomination and Remuneration Policy forms part of the Corporate Governance Report.

PARTICULARS OF LOANS, GUARANTEES OR INVESTMENT

Disclosures relating to the Loans, Guarantees or Investments, as defined under Section 186 of the Companies Act, 2013, forms part of the notes to the Financial Statement.

VIGIL MECHANISM

A Vigil Mechanism in the form of an Ethics Helpline and Whistle Blower Policy was established by the Company to trace and deal with instances of fraud and mismanagement. The details/report for the same was directly reported to the Audit Committee Chairman. A brief note on the Whistle Blower Policy is disclosed in the Corporate Governance Report. The Policy is also posted on the Company's website.

INTERNAL CONTROLS & SYSTEMS

The Company has satisfactory internal control systems and vigilance systems, which are continuously evaluated by professional internal and statutory auditors of repute. The Company continues to improve the present internal control systems by implementation of appropriate policy and processes. The Company is focused on incorporating the controls and checks in ERP system of SAP. The Company has in place an adequate system to ensure efficacy of operations, compliance with applicable legislation, safeguarding of assets, adherence to management policies and promotion of ethical conduct.

A dedicated Legal Compliance cell ensures the Company conducts its business with high standards of legal, statutory and regulatory compliances. The Audit Committee reviews the internal control systems and procedures periodically. The Company maintains a system of internal financial controls (IFC) designed to provide a high degree of assurance on various business areas such as Procure to Pay, Inventory, Order to Cash, Fixed Assets, Human Resource, Legal, Book Close and MIS regarding effectiveness and efficiency of operations, reliability of financial controls and compliance with laws and regulations. This is done by recording the results of key manual controls status across the company and also retaining the back-up of the same in a common secured server for future reference.

BUSINESS RISK MANAGEMENT

In a competitive auto environment, like most other Tier- I companies, Gabriel too faces several threats. Competition in the suspension industry is expected to put pressure for developing competitive products with high performance, quality and longer life. The Company's business is exposed to many internal and external risks which were identified after proper risk assessment. Some of the key risks identified are a threat to market share due to global competition, procurement of few components, Exports and regulatory compliance. As per the policy, the risks have been reviewed by the senior management as well as short term and long term risk mitigation plans have been identified. A Risk Committee formed under the Chairmanship of the Chief Financial Officer meets every quarter to review progress and an update of the same is presented to the Board.

The key risks of the organization are:

Industry Risk

The Company is proactively prepared for a sectoral slowdown by widening its product basket and cushioning it from any downturn. The Company bolstered its customer de-risking by forging relationships with a large number of OEMs, widening its Exports and the Aftermarket presence. The Company singled out Exports and Aftermarket Business Unit as key growth verticals for the future and reformulated tactics to enhance revenue shares from these segments without compromising growth with OEMs. The Company has signed a technology agreement with KONI B.V., The Netherlands.

Competition Risk

The Company is working closely with customers to develop products collaboratively. The Company has empowered its employees to seek and eliminate operating inefficiencies, thus strengthening margins in the process. The Company invested in

renewable energy with the objective to moderate costs across the long term. To support the Company's ride tuning capabilities, the Company invested in a Ride Tuning Van to enable faster product approval with customer satisfaction.

Procurement Risk

The Company has been engaged in vendor rationalization with the objective of enhancing purchasing efficiencies. The Company implemented an action plan to minimize an excessive dependence on specific vendors. The Company has identified over reliance on single sourced vendors as a risk. It has made an elaborate action plan to counter the same by way of strategic partnerships, alternate sourcing and vendor consolidation for high-risk vendors. The Company grew volumes to procure material and sub-components more efficiently.

Export Risk

The Company keeps up with its strategy to engage into technology collaborations to enhance product and process competencies. The Company invested in extensive training to enhance product quality and process discipline. The Company commissioned a full-fledged 2-Wheeler R&D Centre at Hosur in December 2013 and strengthened its R&D capabilities in its Passenger Cars and Commercial Vehicles Business Unit. The Company has set up a dedicated team to focus on Exports for the regions of South Asia, ASEAN, Middle East and Latin America.

Compliance Risk

The Company conducts comprehensive checks to ensure that all transactions are correctly authorized, recorded and reported. Its internal control system is supplemented by an extensive array of internal audits, reviews of findings and assessment of improvement opportunities across business processes, systems and controls. The Company is establishing an Intranet-based software to derive a visual confirmation of compliance across its plants. The company identified additional risk of Statutory & EHS compliance at key vendors for continuous monitoring.

CONTRACT AND ARRANGEMENT WITH RELATED PARTIES

During the year, the Company hasn't entered into any contract/ arrangement/ transaction with related parties which were either not at an arm's length or not in the ordinary course of business and further could be considered material in accordance with the policy of the Company on materiality of related party transactions.

Hence, there is no information to be provided in Form AOC-2, while the particulars of all Related Party Transactions in terms of Accounting Standards-18 are forming part of the financial statements.

The Policy on materiality of related party transactions and dealing with related party transactions as approved by the Board may be accessed on the Company's website.

CORPORATE SOCIAL RESPONSIBILITY

Gabriel continues to invest in Corporate Social Responsibility initiatives for societal advancement and benefits. The Company, through Sant Nischal Singhji Foundation (SNS Foundation), successfully strives in its endeavor to impact the underprivileged sections of the society through various programmes. SNS Foundation is the social engagement arm of the ANAND Group. It is a charitable Trust which has been sanctioned tax exemption under Income Tax Act, 1961.

In the past two decades, the SNS Foundation has:

- Trained 30,000 youth across skill sectors
- Annually, 2500 youth attended SNSF's 15 multi-skill development centres
- Made available quality education to 100,000 Government School Students
- Annually, 12,000 children aged 3 years to 18 years access quality education inputs across 50 Government/Government aided schools

Through the SNS Foundation, the Company has invested in organizing health check-up camps, adult literacy classes and classes to prepare non-school going children for formal schooling. Dustbins have been installed and sanitation workers are deputed to ensure better hygienic conditions at various project sites. This is in line with the Government's 'Swachh Bharat Abhiyan'. The vocational training and skill development courses provided by the Foundation have touched the lives of many underprivileged youth and women across the country and created sustainable livelihood opportunities for them.

TECHNOLOGY ABSORPTION, ADAPTATION AND INNOVATION

Efforts, in brief, made towards technology adaptation and innovation:

1. A. Technology from Kayaba Industry Co. Ltd. Japan was used for manufacture of Shock Absorbers, McPherson Struts & Front Forks mainly for Japanese OEMs in India.
 B. KYB Suspensions, Europe, SA a wholly owned subsidiary of Kayaba Industry Co. Ltd. Japan provided technology for new generation vehicles of European origin.
 C. Technical Assistance with Yamaha Motor Hydraulic System Company Limited, Japan (formerly SOQI) for technology of front fork and 2-Wheeler shock absorbers.
 D. Technical Assistance with KONI B. V., Netherlands for technology of Shocks suitable for buses and trucks. The company has dispatched the first saleable consignment evolved from the collaborative approach of this technology license agreement. This marks Gabriel's first foray into the luxury bus segment. Gabriel & KONI are continuously focusing on addressing the high-damping force product requirements in the truck segments with customers such as DAIMLER and Tata Motors as well.
2. Benefits derived as a result of the above efforts are acquiring new business, product development, import substitution, product improvement and cost reduction.
3. The Company developed several new suspension systems for various OEMs during the year under review and worked on developing local solutions for imported parts and components, thereby reinforcing the Indian Prime Minister's Make in India campaign.

*Annexure C - Conservation of Energy and Green Technology***Annexure C** (Contd.)

4. Particulars of imported technology in the last five years:

Technology development and assimilation is an ongoing process. In order to meet the ever increasing demand of customers and continuously changing global standards, continuous access to proven foreign technology is available.

Independent Auditors' Report

Independent Auditors' Report

TO THE MEMBERS OF GABRIEL INDIA LIMITED**Report on the Financial Statements**

1. We have audited the accompanying financial statements of Gabriel India Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2016, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements to give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these financial statements based on our audit.
4. We have taken into account the provisions of the Act and the Rules made thereunder including the accounting standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2016, and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

Annexure II to Independent Auditors' Report

Annexure II to the Independent Auditors' Report

of even date on the financial statements of Gabriel India Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Gabriel India Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the period from April 1, 2015 to March 31, 2016.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that operate effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the Institute of Chartered Accountants of India ("ICAI") and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Annexure II to Independent Auditors' Report

Annexure II to the Independent Auditors' Report (Contd.)

of even date on the financial statements of Gabriel India Limited

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by ICAI

Notes Forming Part of the Financial Statements

Note 1 : Significant accounting policies

a) Basis of Accounting

These financial statements have been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention on accrual basis. These financial statements have been prepared to comply in all material aspects with the accounting standards notified under section 133 of Companies Act, 2013.

All assets and liabilities have been classified as current or non-current as per the companies operating cycle and other criteria set out in the revised Schedule III to the Companies Act, 1930. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – noncurrent classification of assets and liabilities.

b) Use of Estimates

The preparation of financial statements requires the management to make estimates and assumptions considered in the reported amount of assets and liabilities (including contingent liabilities) as on the date of financial statements and the reported income and expenses during the reporting period. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

c) Tangible Assets

- Tangible Assets are stated at their original cost (net of CENVAT where applicable) including freight, duties, customs and other incidental expenses relating to acquisition and installation. Interest and other finance charges paid on loans for the acquisition of tangible qualifying assets are apportioned to the cost of fixed assets till they are ready for use.
- Expenditure incurred during the period of construction is carried as capital work-in-progress and on completion the costs are allocated to the respective fixed assets.
- Foreign exchange fluctuations on payment / restatement of long term liabilities related to fixed assets are charged to Statement of Profit and Loss.
- Assets held for sale or disposal are stated at the lower of their net book value and net realisable value.

d) Intangible Assets

- Intangible assets comprising of computer software and technical know-how fee are initially measured at cost and amortised so as to reflect the pattern in which the asset's economic benefits are consumed.

e) Depreciation / Amortization :

Tangible Assets

Depreciation on tangible assets is provided on straight line method over the useful life of asset prescribed in Part C of schedule II of the Companies Act, 2013 except in respect of certain assets listed below where useful life is estimated different from the prescribed rate based on internal assessment or independent technical evaluation carried out by external valuers. The management believes that the useful lives as given below represent the period over which management expects to use these assets.

Asset Class	Estimated Useful Life (No. of Years)	Specified Useful Life in Schedule II (No. of Years)
Roads	5-8	5
Fences-Wells-Tube Wells	5-8	5
Certain items of Plant & Machinery	5-14	15
Air Conditioner	5	10
Furniture	8	10

In terms of the requirements of the Company Act, 2013 the company has also identified significant components of the assets and its useful life based on the internal technical valuation. Depreciation charged on such component is based on its useful life.

Notes Forming Part of the Financial Statements

Notes Forming Part of the Financial Statements (Contd.)

- **Intangible Assets**

Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, commencing from the date the asset is available to the Company for its use. Estimated useful lives are as under:-

Asset Class	Estimated Useful Life (No. of Years)
Computer software	3
Technical Knowhow	6 or period of agreement whichever is lower

f) Investments

Long term investments are stated at cost. Provision is made for any diminution other than temporary in the value of investments.

Current investments are stated at cost or fair value, whichever is lower.

g) Inventories

Inventories are stated at lower of cost or net realizable value. Cost of raw materials, stores and spares and packing materials are determined on weighted average basis. Cost of finished goods and work in progress comprises raw material, direct labour, other direct costs and related production overheads.

h) Government Grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, they are deducted from gross value of such assets.

Government grants of the nature of promoters' contribution are credited to capital reserve and treated as a part of the shareholders' funds.

i) Revenue Recognition

- Domestic sales are recognised at the point of dispatch/delivery of goods to the customers as per terms of contract, which is, when substantial risks and rewards of ownership passes to the customers, and are stated net of trade discounts, rebates, sales tax, value added tax and excise duty.
- Export sales are recognised based on the date of bill of lading except, sales to Nepal which are recognised when the goods cross the Indian territory, which is when substantial risks and rewards of ownership passes to the customers.

j) Accounting for taxes on income

- Provision for current tax is made, based on the tax payable under the Income Tax Act, 1961. Minimum Alternative Tax (MAT) credit, which is equal to the excess of MAT (calculated in accordance with provisions of Section 115JB of the Income tax Act, 1961) over normal income-tax is recognised as an asset by crediting the Statement of Profit and Loss only when and to the extent there is convincing evidence that the Company will be able to avail the said credit against normal tax payable during the period of ten succeeding assessment years.
- Deferred tax on timing differences between taxable income and accounting income is accounted for, using the tax rates and the tax laws enacted or substantively enacted as on the balance sheet date. Deferred tax assets on unabsorbed

Notes Forming Part of the Financial Statements (Contd.)

tax losses and unabsorbed tax depreciation are recognised only when there is a virtual certainty of their realisation. Other deferred tax assets are recognised only when there is a reasonable certainty of their realisation.

k) Foreign Currency Transactions

- Initial Recognition : - Transactions in foreign currencies are recognised at the prevailing exchange rates between the reporting currency and a foreign currency on the transaction dates.
- Conversion : - Foreign currency monetary assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of profit and loss. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.
- Exchange differences:- The Company accounts for exchange differences arising on translation/settlement of foreign currency monetary items as below:
 - Realized gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.
 - Foreign currency monetary assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.
- Forward exchange and other derivative contracts entered into to hedge foreign currency risk of an existing assets/liabilities
 - In case of forward contracts with underlying assets or liabilities, the difference between the forward rate and the exchange rate on the date of inception of a forward contract is recognised as income or expense and is amortised over the life of the contract.
 - Exchange differences on such contracts are recognised in the Statement of Profit and Loss in the period in which the exchange rate changes.
 - Any profit or loss arising on cancellation or renewal of forward exchange contracts are recognised as income or expense for the period.
 - Forward contracts entered into by the company to cover its exposure against firm commitment are marked to market as at the year end. The resultant loss is recognized in the Statement of Profit and Loss and gain, if any is ignored.
 - Premium or discount on foreign currency forward and option contracts are amortized and recognized in the statement of profit and loss over the period of contract.

l) Research and Development

Equipment purchased and cost of construction of assets used for research and development is capitalised when commissioned and included in the fixed assets. Revenue expenditure on research and development is charged in the period in which it is incurred.

m) Retirement Benefits

- Provident Fund : - Contribution towards provident fund is made to the regulatory authorities. Such benefits are classified as defined contribution schemes as the Company does not carry any further obligations, apart from the contribution made on a monthly basis.
- National Pension Scheme : - Contribution towards pension fund is made to the various funds. Such benefits are classified as defined contribution schemes as the Company does not carry any further obligations, apart from the contribution made on a yearly basis.
- Superannuation Fund : - The Company has Defined Contribution plans for Superannuation Fund. Contributions payable to the Superannuation Fund maintained by LIC are charged to the Statement of Profit and Loss. The Company does not carry any further obligations, apart from the contribution made.

Notes Forming Part of the Financial Statements (Contd.)

- **Gratuity :** - The Company provides for gratuity, a defined Benefit plans (the “Gratuity Plan”) covering eligible employees in accordance with the payment of Gratuity Act, 1972. The Gratuity plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee’s salary and the nature of employment. The Company’s liability is actuarially determined (using the Projected Unit Credit Method) at the end of each year. Actuarial losses / gains are recognized in the statement of Profit and Loss account in the year in which they arise. The Gratuity Fund is maintained with LIC which is recognized by the income tax authorities.
- **Compensatory Absence :** - The Company provides for the encashment/ availment of leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits for future encashment/availment. The liability is provided based on the number of days of unutilized leave at each balance sheet date on the basis of an independent actuarial valuation.

n) Borrowing Cost

Borrowing Costs attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of the asset till the asset is ready for use. Interest on other borrowings is charged to Statement of Profit and Loss.

o) Leases

Lease arrangement where the risks and rewards incidental to the ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rent under operating leases are recognised in the Statement of Profit and Loss as per terms of agreement.

Assets acquired under finance leases are recognised at the lower of the fair value of the leased assets at inception and the present value of minimum lease payments. Lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to periods during the lease term at a constant periodic rate of interest on the remaining balance of the liability.

p) Warranty Provision

The estimated liability for product warranties is recorded at the time of the sale of the products. The provision is based on management’s estimate of the future cost of corrective action on product failure considering the claims received in the past.

q) Provisions and Contingencies

Provisions are recognised when there is a present obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

r) Impairment

The carrying value of assets/cash generating units at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life to their present value based on an appropriate discount factor.

s) Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company’s earnings per share is the net profit for the period after deducting preference dividends and any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods

Notes Forming Part of the Financial Statements

Notes Forming Part of the Financial Statements (Contd.)

presented is adjusted for events, such as bonus shares, sub-division of shares etc. that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

t) Cash and Cash Equivalents

In the Cash Flow Statement, cash and cash equivalents includes cash in hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.
